Rev. 5:1-14 THE SEVEN-SEALED BOOK
THE LAMB AND THE BOOK

Chapter 4 and 5 go together 5:1 "and": We continue to look through golden sealed eyes upon the throne, to Other, to living One. But there is preparation for something most highly significant, tremendous.

Prominently, and first, of all, the thing presented in the new development is a book, a scroll, a roll, etc. right to right hand I had. the book; cf - 3:5; 13:8; 20:12,15 a register? record the book of records - 20:12,13 divine record? divine decree. The book of records - 10:8, 10:12, 8:11. But it is not altogether different.

Closed sealed with 7 seals. ΚΑΤΕΣΦΡΑΓΙΣΜΕΝΟΥ αρχαὶ τοῦ ἔπειται
seven seals fastened together with number 7 indicate just how securely
the book was sealed. Rolled up to a point, seal placed upon the edge
so it could not open until all seal broken. Rolled up + little further.
With seal placed there, no one until it find up to seal secured
with seal. when first seal broken, a certain point? the book
is entire scroll. when first seal broken, entire book unrolled.
A good & wise who makes but not other, entire book unrolled.

The book is sealed. what does it represent?

(1) It represents the inconstancy, chit, His talk over the governmental authority & in many, describes the precisely which this power to & place it by hands. Finis. Implementer? not 18:18

(2) It represents the several councils, the, by degrees, plan, purpose,
for the entire nation, the great history, all meeting for us to see. Once
written on both side, it fulness of the minister, filled with meaning &
importance. So many God judgments, pressed for space. The closed
scroll: the plan / the government, ~~was~~ written; the plan unrealized,
result: the plan / the government, ~~was~~ written; the plan unrealized. Finis.
To open the scroll, not up to know, but to carry out their plan. Finis.

(3) Dan. 12:9 the sealed book until the time of the end. Lxx sealed = here.
The sealed book is here, yet the time of the end has come. what is it
written will now before us as it were an open. Suppose, the one
now to be revealed. The time has come. Finis.

These underlying facts concerning the body:

1. It, and it alone, brings up to mind the Son, the Lamb, the Beloved, & the world, the subject of the new song of victory, and the great affliction of all the world, which will lead to the New Creation.
 2. When theaphants take the lamb, the dove so as to cleanse, a sacrifice is made, class. The song in answer is directed to this in the inscription.
 3. What he does in song to take it is mostly from which all readers have street book in remembrance, inability to perform.
 4. The words, the song, despatched, are words, redemption, justice is by the Father, Christian, the entire universe.
- They book "Liberate, Earth's primary and most essential reference to salvation, they book "Liberate, Earth's primary and most essential reference to salvation." Col. 1:14
It is a book covering all redemption & its purchased possession." Col. 1:14
The redemption of the whole creature of God: how it is brought to pass.

The meaning of "Redemption":

When the word is used one means go back to the former world, like in the cross, already accomplished, completed. Good. But as the great deliverer from sin, already redemptor appears. But, viewed as a work, redemption is a process, which redemptor accepts. But, viewed as a work, redemption is a process, which redemptor accepts. Scratches back though history through mostly world, more works, trying. Scratches back though history through 1 year, yet its subtler part is in the future. So leaves all past inseparabilities, the crucifixion (OT, flesh, soul, free, priest) but where no inseparabilities, more worldy, gloriouss, more glorious, more dispensations, more worldy, gloriouss, more dispensations, more worldy, more far, ready results. (he works at it.) becomes almost 2x with ready, more ready, results. (he works at it.) becomes almost, more, redemptor shows, blood is word. more quickly (comes at quick) now at refuge (now at refuge) X

The a joker change, yet also the world, exploded from destruction.

But all this was not always / many is as mostly compares with nothing yet to Redemptor has it, worth in the past, but the true realization lies in the future.

q. H. 21:28 in 1st sense, the true reality of redemptor lies far more in future than

f. with all fault gloriouss in cross (Gal 6:14) said I Cor. 15:15

g. Eph. 1:13, 14 Paul speaks / X's sealed, a manumission day, but that the

more "earnest", taken, & a worldy greater is sentence still future, "....."

q. Rom. 8: 22, 23 Redemptor is still largely a subject of Rom. 8:22-25

There is an apocalyptic phase, a possessioin purchased, but it is

a right not received. The action of claiming, disowning, holding

possessioin of it is still future. And it is just this that the Saviour

is aiming in taking up the book, against the real thief).

The Meaning of "Reception"

The significance from certain laws, customary & ancient laws.
Under these laws, customs, it was impossible to alienate certain lands
bought & given them. Inv. 25-8-10, 17, 23-25, 47-49

- ① The right, title returned them to their former owners.
- ② If forced to sell, a donor to right to recover it, buy it back, retain it.

→ Ruth 4. So Job. 32:6-16

When an inheritance forced away by the rightful owners, there were
2 kinds (null) used 1: by transfer, i.e. we give for all to see, the other
method specifying the particular things, matter, the party signs at least
the name (owner's name). As this is passed, is protection adopted?
to whom? Owner himself, 2: which written to record by the forbearer,
say 1 null notice, 2: which written to record by the forbearer, no.
record of terms? payment etc of the money, the witnesses, etc.
& sealed book they became a sturdy sign & can't be disputed in法庭,
but no title as the title to be removed & the terms agreed.
when anyone legally represents the original owner was found
negligent to lift and destroy the sealed instrument, they buy it back,
he was called the GOER (of job) defendant, in this instance was
insure relevant.

This "null" or book land has to do with a possible or definite
event happen in the future resolution of the action & judgment are
intended to dispossess the respose and the alien.

The "2 kinds" = the completeness of the (book) forbearer, deliberately
admits and signs this paper in witness. The beginning what not to be
done for ever, grant from a forbearer, just to be final fully & to
book, clearly 2 in kind, evidence in court records, full
recognition not 2 in kind, when the documents which are
forged or very good released, in these cases records not fully
admitting, the evidence of the in completeness
are up to debate.

- Let us go back a moment to earth's first scene. In the Garden of Eden God blessed our first parents and gave them full dominion (Gen. 1:28). Subsequent tragic events took place and Satan diabolically wrested from them authority unto himself. Not until Christ died on the cross was authority placed in different hands. Now we see a book which represents this universe-wide authority including the right to bring to pass events and happenings.
