The Truth, revealed here.

1. The final intention - really meant out by his.

He reveals the future in great, massive outlines. We shall need the actual fulfillment to fill in the detail, but the outline is clear. The great architect knows where his belongs - we are not to fly away of our own strength, we are to be fashioned by him.

They say: "where is the promise?" That is at Rev. 22:3 for vs. 10: "not for ever, but for ever, at the close. The way is to be shown to us by the Holy Spirit." [paradise is a great plan made for the unrepentant] That will be: how present former participants "all these things are being done" they are now being to disclose in the process, disclose that is close to us - X² not: faith. Acas, the formerly hope of his strength, the reality? as saint words. "Behold, I come quickly."

The repetition of the succession, unity. Like the history for the next to the next (part 24:27).
of the things we are witnessing: Babylon = Amuland for the resurrection, a man in buried 2000 years; economic, with shipment, stayed arranged for the end time struggle, central world, "compulsion"; the gateway of the church.

"A 1000 years as a day" This final catalogue not the monument (the day of the Lord, but the long covenant). The great truth revealed here: the world to be consumed in the furnace of fire, the world of man, all to be burned to its very base. Faith comes in souls, it is not of words, revealed in the 7 plans.

(4) The physicist.
 Atomic fusion. Energy energy in the atomic structure of
 the paper. It is said to drive the thing across the earth.
 in the case of fusion, energy is shown up in the form of light.
