

WORLD VISION AT A GLANCE

Your partner in empowering vulnerable children

GOOD FOR YOUR BUSINESS. GOOD FOR THE WORLD.

World Vision believes doing good is good for business. **That's why we work with you to meet your business needs, whether they're reducing costs, solving for excess product, or increasing sales through cause marketing—all while helping children in need.**

With staff in nearly 100 countries and work in every region of the globe, World Vision is an ideal implementation partner for companies that want to contribute to lasting change in the communities they support. We're grateful to have earned the trust of nearly 1 million individual donors in the U.S., hundreds of local and national government agencies, and thousands of corporations and foundations.

A FULL SOLUTION TO POVERTY

World Vision has over 70 years of experience working with communities, donors, partners, and governments to create opportunities for better futures for vulnerable children—even in the toughest places. **We tackle poverty at its roots.** Our integrated approach includes water, healthcare, education, child protection, and income generation.

When disaster strikes, we are on the ground, quickly providing immediate support—and we stay to help children, families, and communities rebuild for the future.

We empower communities and guide them to set their own goals and equip them so that progress made is sustained, and continued, long after we've left.

› Local staff & knowledge = lasting impact

Approximately 95% of our staff are based in their home country or region, bringing critical knowledge of and sensitivity to local needs and culture.

› Serving every child we can, of any faith or none

- We help children of all backgrounds, even in the most dangerous places.
- We serve all people, regardless of religion, race, ethnicity, or gender.

"What I really like about World Vision, and why we've gotten more involved, is the holistic approach. This is a development model that helps people develop physically, emotionally, and spiritually. World Vision launches an effort and lets the community drive it forward as their own."
