

**WATER** | Honduras

**Progress Report**

October 2024–September 2025

## SUMMARY

In Honduras, we crossed the halfway point of finishing the job to reach 650,000 people with access to clean water in 49 municipalities by 2028. Thanks to your generous support, we have reached 332,695 people, or 51% of our total goal, to date.

This progress reflects true partnership with churches and faith leaders, community water committees, schools, and local governments working alongside World Vision and donors like you to make lasting change possible. Following are highlights from fiscal year 2025:

### Clean water access

- We reached 109,226 people with clean water via 74 new or rehabilitated systems, including 15 health centers and 142 schools serving 13,238 children.
- At a national event, local leaders and water committees from 16 municipalities were honored for helping their communities reach 90% clean water coverage, meaning the majority of residents can access water within 30 minutes of their homes.

### Sanitation and hygiene

- In households, 14,022 people benefited from 2,454 new sanitation facilities. In addition, 8,852 children in 63 schools and patients in 16 health centers now have access to inclusive sanitation and hygiene facilities, including menstrual hygiene management rooms.
- Hygiene facilities were installed in 9,349 households, benefiting more than 55,000 people, while 6,671 families participated in programs that promote handwashing and healthy habits.
- Through our partnership with Sesame Workshop’s WASH UP! and Girl Talk programs, 8,592 students learned good hygiene practices, and 1,700 girls were equipped with menstrual hygiene education.
- In communities, 196 people (like Sandra, pictured) participated in workshops, learning how to make hygiene products like soap and disinfectants to improve hygiene practices while also increasing income.

*Sandra spent years working in tobacco fields, struggling to provide for her family as her health declined. Then, through a World Vision workshop, she learned to make hygiene products including soap, shampoo, and deodorant. What began as a strategy to save money became a business venture, which has tripled her income. “World Vision has been a great blessing in my life and in my family’s life,” Sandra said.*

## PROGRESS ON CORE ACTIVITIES

OUTCOME	PEOPLE REACHED IN FY25*	PERCENT OF ANNUAL TARGET
Access to Clean Water	109,226	74%
Access to Household Sanitation	14,022	117%
Access to Handwashing Facilities**	55,555	591%

\*FY25 is October 2024 through September 2025

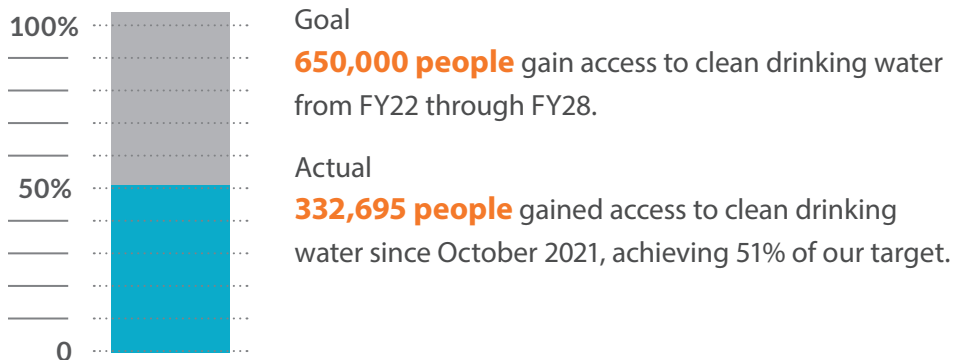

\*\*Conservative program targets as well as expanded community reach and increased faith leader engagement helped us far exceed our goal in FY25.

## CHALLENGES AND KEY LEARNINGS

Some water projects stalled due to delays in technical studies, such as topographic surveys and engineering designs. These studies are essential for determining water sources, system capacity, and safe distribution routes; without them, construction can't begin. At the same time, planning was slowed by limited and outdated data from local municipalities, making it hard to prioritize investments. To address this, we hired specialized consultants to produce high-quality studies and developed 32 municipal water and sanitation plans, creating clear roadmaps for expanding water, sanitation, and hygiene services.

Looking ahead, we're mitigating risks that could disrupt progress. Elections may cause delays in local coordination, so we're maintaining close communication with community leaders. Supply chain interruptions are being addressed through early procurement of materials. Seasonal flooding and landslides are mapped through vulnerability analyses, and because coffee harvest season draws families away from home, we're using flexible scheduling to keep communities engaged.

## LIFE-OF-PROGRAM UPDATE

## PLANS FOR THE NEXT SIX MONTHS

- We plan to sign agreements with new private sector and nongovernmental organizations who will partner with us to build infrastructure and provide technical support.
- We will continue preparing for the launch of a women's leadership school. This new program aims to increase women's participation in decision-making, planning, and supervision for water, sanitation, and hygiene projects.

## THANK YOU

Your faithful support is equipping families with access to clean water, safe sanitation, and hygiene programs, leading to healthier communities where children can grow strong and thrive. Thank you for offering a tangible expression of God's love to communities in Honduras.

Children, community members, and the mayor of La Laguna San Jose (located in the Florida Area Program) celebrate the inauguration of their new water system.

Access to clean water is transformative for communities like La Laguna San Jose, impacting nearly every aspect of life. With cleaner, healthier homes, schools, and health clinics, there are fewer illnesses and school absences. And when women and children no longer have to spend hours collecting water, they're free to pursue education and economic opportunities.

P.O. Box 9716  
Federal Way, WA 98063-9716

World Vision is a Christian humanitarian organization dedicated to working with children, families, and their communities worldwide to reach their full potential by tackling the causes of poverty and injustice. Motivated by our faith in Jesus Christ, we serve alongside the poor and oppressed as a demonstration of God's unconditional love for all people. World Vision serves all people, regardless of religion, race, ethnicity, or gender.

# FINISH THE JOB HONDURAS

This map shows World Vision program sites in Honduras for FY22–FY28 and their water point coverage rates.

Key Municipality	Key Municipality	Key Municipality	Key Municipality
1 Copan Ruinas, Honduras	14 San Marcos, Honduras	27 Camasca, Honduras	40 Teupasenti, Honduras
2 Santa Rita, Honduras	15 Mercedes, Honduras	28 Colomcagua, Honduras	41 Patuca, Honduras
3 San Jeronimo, Honduras	16 Cololaca, Honduras	29 Santa Elena, Honduras	42 Trojes, Honduras
4 San Antonio, Honduras	17 Guarita, Honduras	30 Yarula, Honduras	43 Danli, Honduras
5 Florida, Honduras	18 San Juan Guarita, Honduras	31 Marcala, Honduras	44 El Paraiso, Honduras
6 Nueva Frontera, Honduras	19 Gracias, Honduras	32 Cabanas, Honduras	45 San Matias, Honduras
7 San Manuel, Honduras	20 Belen, Honduras	33 Santa Ana, Honduras	46 Jacaleapa, Honduras
8 El Progreso, Honduras	21 San Juan, Honduras	34 Opatoro, Honduras	47 Yuscaran, Honduras
9 Yoro, Honduras	22 Jesus de Otoro, Honduras	35 Chinacua, Honduras	48 Alauca, Honduras
10 La Ceiba, Honduras	23 San Isidro, Honduras	36 San Jose, Honduras	49 Concepcion de Maria, Honduras
11 Jutiapa, Honduras	24 Intibuca, Honduras	37 Ojojona, Honduras	
12 La Labor, Honduras	25 Yamaranguala, Honduras	38 Santa Ana, Honduras	
13 San Francisco del Valle, Honduras	26 Dolores, Honduras	39 Moroceli, Honduras	

## CLEAN WATER COVERAGE

World Vision is striving to reach everyone, everywhere we work in Honduras with clean water. Achieving "high" clean water coverage within an area program signifies that we have reached our goal, with at least 90% of targeted rural communities having access to clean water. World Vision in Honduras continues to open new area programs and therefore is working in areas not reflected on the map.

## HONDURAS—WATER, SANITATION, AND HYGIENE (WASH)

World Vision uses indicator tracking tables (ITTs) to monitor the success and progress of our programs. Below is the ITT for the Honduras WASH Program for FY25.

OUTCOMES AND OUTPUTS	FY25 Annual Achieved	FY25 Annual Target	Achieved vs. Target
<b>Water Supply and Security</b>			
People reached with safer, more accessible drinking water	109,226	147,869	<b>74%</b>
Children reached with safer, more accessible drinking water in schools	13,238	20,292	<b>65%</b>
Taps installed from successful water supply systems in communities, schools, and health centers	18,699	29,959	<b>62%</b>
Nonfunctioning water points rehabilitated in communities, schools, and health centers	14,529	0	<b>N/A</b>
Schools gaining access to safer drinking water on site	142	356	<b>40%</b>
Healthcare facilities gaining access to a basic drinking water service	15	29	<b>52%</b>
<b>Sanitation and Hygiene</b>			
People gaining access to household sanitation	14,022	13,262	<b>106%</b>
People gaining access to handwashing facilities	55,555	9,402	<b>591%</b>
Children gaining access to sanitation facilities in schools	8,852	4,200	<b>211%</b>
Children gaining access to handwashing facilities in schools	8,852	4,200	<b>211%</b>
Schools gaining access to sex-separated, basic sanitation services (that comply with required ratios)	63	73	<b>86%</b>
Schools gaining access to improved sanitation for children/youth with limited mobility	63	73	<b>86%</b>
Schools gaining access to improved sanitation for girls, with facilities to manage menstrual hygiene	62	73	<b>85%</b>
Schools gaining access to basic handwashing facilities	63	73	<b>86%</b>
Healthcare facilities gaining access to a basic sanitation service	16	24	<b>67%</b>
Healthcare facilities gaining access to basic handwashing facilities	16	24	<b>67%</b>
<b>Governance and Finance</b>			
WASH committees formed and trained with a financing system in place for maintenance and repair	190	185	<b>103%</b>
Local businesses active in repair of WASH facilities and provision of WASH products	196	185	<b>106%</b>
Faith leaders trained to promote safe WASH practices	390	370	<b>105%</b>
Schools trained in planning and budgeting for WASH services	114	97	<b>118%</b>
