In the year 1932 in a small town named Bradford in northern Pennsylvania, George G. Blaisdell laid the foundation for a unique story of success. It all began when a good friend in a country club lit his cigarette with a

States and then worldwide. The Zippo Lighter became a symbol for the American way of life and, without exaggeration, the world's best-known lighter. This myth is also famous due to its presence at

bulky Austrian gas lighter. In response to his skeptical and inquisitive expression, he received the answer, "It works." This moment changed the life of George G. Blaisdell, and it became the hour when the Zippo Lighter was born. The name was also quickly found: a few years earlier, another creative American had invented the zipper. So

the focal points of the world. Many buyers who are non-smokers benefit from its reliability. Sailors and hunters never venture out without their Zippo. Except for small changes, Zippo Windproof Lighters have been produced the same way for decades. While the proven technology remained unchanged, new designs are regularly made for special

occasions and license editions that continually give the Zippo Lighter a new look. With this concept, the Zippo Lighter is not only the world's most reliable, but also the most collected lighter. More than 20 % of all Zippo Lighters sold go directly into the hand of collectors. Rare specimens fetch top prices at collectors' markets. So the Zippo-Click has become an international synonym for reliability and quality.

Mr. Blaisdell named his lighter Zippo. And in his workshop above the Rickerson & Pride Garage, he produced 82 Zippo Lighters in the first month and made a turnover of 62 dollars and 15 cents. Today, 70 years after the company was founded, Zippo has more than 1000 employees in its factory in Bradford, and every day it manufactures nearly 70,000 Zippo Lighters that

are sent to all parts of the world. A traditional American product born during the Great Depression - Black Friday in October 1929 had still not been overcome - the Zippo Lighter became a symbol for typical American values. It was especially the lifetime guarantee that led to the great success in the United

Solid Titanium

The case of this lighter is made of Grade One commercially pure titanium. Shot blasting the case with a fine aluminium oxide media produces the rugged finish. Natural oils from using and handling the lighter will create color variations in the finish, giving each lighter a distinctive look.

An exclusive bottom stamp authenticates this lighter as solid titanium.

Realtree Hardwoods blends natural colors, lifelike shadows, and photo-realistic limbs and leaves into an incredibly three dimensional camouflage. The miniature pattern reveals wide contrast from light to dark, yet is so neutral that it disappears into virtually any outdoor setting. Because Realtree Hardwoods is a dipped coating applied through an immersion process, every lighter displays different views of the all-over layer pattern.

Zippo and the zipper

Zippo was given its name as a derivative of the word "zipper". Zippo inventor George G. Blaisdell liked the sound of the word "zipper", which had been patented in nearby Meadville, Pennsylvania.
