

The Lighter Side of Camel

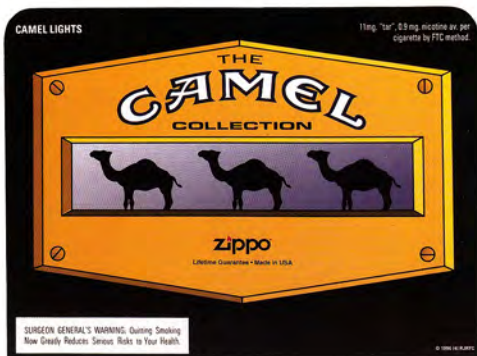

A ZIPPO COLLECTION

THE PRICE GUIDE

Written by Robert Brockmann

The Lighter Side of Camel

zippo®

ZIPPO CLICK

In 2001 the Zippo Manufacturing Company initiated the Zippo Click, the official collectible club for the worldwide clique of Zippo lighter enthusiasts. The club is named, of course, to honor the distinct sound of a Zippo lighter opening. Registration for the Zippo Click began in 2002.

The Zippo Click provides an opportunity for serious and casual collectors alike to share their interest in Zippo lighters. An annual membership fee will give you access to a quarterly newsletter, an exclusive annual lighter available only to members, collector classifieds, collectors interest profiles, and special offering limited edition lighters throughout the year. Other features include live on-line chats, and a Zippo auction site with rare Zippo lighters and memorabilia offered exclusively to club members. For registration and information "click" on the website, zippo.com

INTRODUCTION

No portion of this publication may be reproduced, copied, or transmitted in any form or by any means. This includes electronic, mechanical, photocopy and computer scanning. Please forward any questions or comments to www.zipstreet.com

The intention of this book is to list all known Camel Zippo lighter images through 2002. However, if certain lighters do not appear in this guide it may be because of their similarity to other versions pictured or possibly an oversight by the author, which may be corrected in subsequent revisions. It should not be assumed the lighters excluded from this book have no collector value.

While the Camel lighters in this book appear to be in chronological order, they are also listed by similarity of design. The numbering system under the lighter is based on the order the lighter appeared in this book. The purpose of the numbering system will be to effectively identify all Camel Zippo lighters. Since many of the lighters have similar names and imagery the numbers are an important tool for future identification.

People from all over the world collect Camel Zippo lighters. They have been buying, selling and trading them for many years. However, it is difficult to accurately value a lighter that does not exist in sufficient quantities. A committee of people using experience and the history of previous transactions created the values in this book. It should be remembered that values are arbitrary and the true current market value can only be determined when a buyer actually pays and a seller actually sells an item. The listed values in this book, therefore, are based on what the lighter should bring in an average market. In the past few years, sensationalized auction prices have tended to create huge swings in values. While certain lighters are indeed rare and valuable, the majority of most Camel Zippo lighters are quite affordable and readily available. This book should be a valuable resource for years to come. The values in this book should be used only as a guide. They are not intended to set prices, which vary from one section of the world to another. Auction values, as well as dealer prices vary greatly and are affected by condition, rarity, and demand. The author and contributors do not assume any responsibility for any losses that might be incurred as a result of consulting this guide.

The author and contributors of this book have made every effort to ensure the authenticity and accuracy of all information provided. The information is, however, sold without warranty, either expressed or implied. The author and contributors will not be held liable or responsible for any damage, direct or indirect, resulting from the use of any information provided in this work.

Producing this book would not have been possible without a great deal of help! Listed below are some of the people who have contributed to this book. I consider all of them my friends. These guys know their Camel Zippo lighters. Thank you again!!

CHUCK DUCKETT

TOMMY SHOUSE

LEN SHORTER

JAN EMERISER

CHRIS WYCOFF

I would also like to thank **Lesley Wright of Wright Design** who worked tirelessly on the layout and design, and **Shane Pequinot of Eye • Pix Photography** who digitally shot all of the lighters.

ZIPPO AND THE TOBACCO INDUSTRY

by Linda Meabon, Zippo Historian

Zippo has had a long relationship with the tobacco industry since our early days. Zippo was founded in 1932 and just a few years later the company produced lighters imprinted with the El Producto logo using a metallique, Zippo's first form of customization. Later, special lighters were produced for P. Lorillard tobacco company, imprinted with Old Gold and Kent cigarette package ads and logos as well as for Muriel Cigars in 1952.

Throughout the late 40's and '50's, Zippo produced lighters as special orders with ads and logos for Chesterfield, Camels, Lucky Strike, Viceroy, and Holiday Mild cigarettes. In the '60's, lighters were engraved with an individual's name or handwritten signature as part of a Brown & Williamson Raleigh coupon redemption program. From the 1960's through the 1990's, Zippo has made lighters which promoted such brands as Winston, Kool, Salem, Merit, Viceroy, Newport, Parliament, L&M, Benson & Hedges, Virginia Slim, Marlboro, and, of course, Camel. Zippo began producing imprinted Joe Camel and Camel Beast logo items as fulfillment orders in 1992.

Early 1995, Zippo and R J Reynolds agreed on a licensing program to produce lighters imprinted with Camel ads and logos using two unique processes:

Sublimation was used on three regular size lighters and one slim lighter for Camel Cash IV catalog in 1993. The sublimation process is complex. Each purple matte powder coat lighter was covered with the unique sublimation finish on all surfaces including the top, bottom, sides, and hinge. A clear coat was applied to the matte lighter and the proper paper transfer for each design was placed over the front and sides of the lighter. The paper transfer was sprayed with a chemical then the lighter was placed in an oven with specific time, temperature, and pressure applied. This process was repeated on the reverse sides of the lighter. Due to special handling needed to create the sublimation process, Zippo does not plan to use the process again. Joe Camel lighters produced using sublimation are illustrated on page 11.

Technigraphics is the second of the unique processes. It is a current imprinting process. It begins with steel chips that have been copper coated. The chips are then sprayed with a gloss white. Meanwhile, the graphic image for the lighter is created and reproduced as a mirror image on a transfer sheet. The transfer sheet is placed over a board of chips and topped with a silicone pad. The board is placed in an oven with specific time, temperature, and pressure for the image transfer. Once cured, the technigraphic chips are now ready to be applied to the top and bottom surface of the lighter. The first Camel lighter produced using technigraphics is shown on page 9.

The collectibility of the Zippo lighter has greatly increased within the past ten years. Among the most popular are lighters imprinted with tobacco company and cigarette advertising logos. The illustrations and descriptions of the wide variety of lighters shown in this book are a great source of information to the Zippo collectors. Many early tobacco theme lighters are displayed at the Zippo/Case Visitors Center, 1932 Zippo Drive, Bradford, PA.

Camel Classic Design

Antique Brass

Proto-type

Turkish & American Blend

Z 128

1995

Camel Classic Design American & Domestic Blend

Brushed Chrome

This lighter is similar to all the other "Classic" styled Camel lighters.

However, the color has more of a creamy look, the Turkish & Domestic Blend was replaced with American & Domestic Blend. The other noticeable change was the paint between the lid and body of the lighter. Now the paint covers the edge of the lid and bottom of the lighter.

Made for the RJR staff in Turkey

NOTES

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be a standard notebook page.

ZIPPO LIGHTER IDENTIFICATION CODES

YEAR	LEFT	RIGHT
------	------	-------

As with most collectibles, the date of manufacture of a Zippo lighter often affects its value. Valuable information on the bottom of every Zippo lighter can help you determine its date of manufacture. Most lighters fabricated between 1933 and 1957 can be identified by style and model and the patent or patent-pending marks.

Starting in the mid 50's date codes were stamped on the bottom. The original purpose was for quality control. The date codes have since become an invaluable tool for Zippo collectors.

The appearance of the word "Zippo" in the bottom stamp provides another clue to dating. There have been three major changes, as shown below.

From 1933 to the mid 50's the word Zippo was stamped in block letters.

ZIPPO

1933	Patent Pending
1937 - c.1950	Patent 2032695
1942 - 1946	Black Crackle, Patent 203695. (This number was stamped in error, should have been Patent 2032695)
c.1950 - c.1957	Patent 2517191
c.1950 - c.1957	Patent 2517191 with patent pending

Zippo records indicate an overlap of bottom stamp configurations from 1949-1957. Also some lighters produced between 1955-57 were date coded, however, specifics remain unclear. The Zippo script logo was developed in the late 40's and was phased-in on the lighter bottom stamp around 1955.

ZIPPO

YEAR	LEFT	RIGHT

1974	///	///
1975	///	///
1976	///	///
1977	///	///
1978	///	///
1979		

An error was made in the date code. One of the slash marks was removed from the left of the Zippo trademark instead of being removed from the right; thus the code read: ///. This date code error was corrected within the same year to read: ///

In the late 70's the logo was redesigned. It was incorporated into the bottom stamp in 1980.

zippo

ZIPPO LIGHTER IDENTIFICATION CODES

YEAR	LEFT	RIGHT
1980	/	/
1981	/	
1982	\\ \\ \\	\\ \\ \\
1983	\\ \\ \\	\\ \\
1984	\\ \\ \\	\\ \\
1985	\\ \\	\\
1986	\\	\\

Effective July 1, 1986 the dot and slash system was replaced by year / month code. Year is noted with roman numeral; letter designates month (A=Jan., B=Feb., etc.)

1986	G to L	II
1987	A to L	III
1988	A to L	IV
1989	A to L	V
1990	A to L	VI
1991	A to L	VII
1992	A to L	VIII
1993	A to L	IX
1994	A to L	X
1995	A to L	XI

YEAR	LEFT	RIGHT
1996	A to L	XII
1997	A to L	XIII
1998	A to L	XIV
1999	A to L	XV
2000	A to L	XVI

Beginning in 2001, the Roman numerals indicating the year were replaced with numbers corresponding to the last digits of the year of manufacture as follows:

2001	A to L	01
2002	A to L	02
2003	A to L	03
2004	A to L	04
2005	A to L	05
2006	A to L	06
2007	A to L	07
2008	A to L	08
2009	A to L	09
2010	A to L	10

For more collecting information, consult one of several books about Zippo lighters or visit zippo.com.

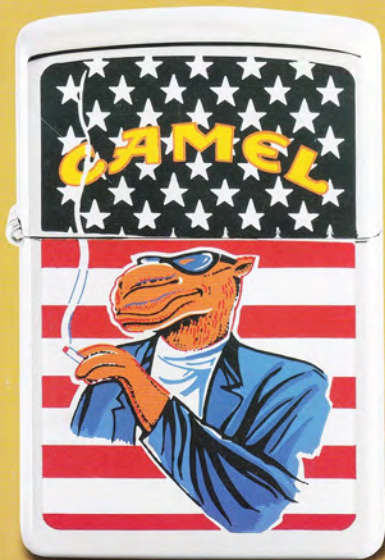

SLIM LIGHTERS

Slim lighters were first introduced in 1956, with a flat bottom and no date code. The first markings were added in 1957 and overlapped into 1958. From 1957-1965 the code configuration on the slim lighters differed from the regular lighters. From 1966 on the configuration has been the same.
