# Zippo MPL [Multi-Purpose Lighter]

Its multi-purpose applications make the Zippo MPL a necessity. Whether at home, at a barbecue, for candles or the fireplace or on the road camping, the Zippo MPL quickly becomes an indispensable companion.

For this reason, its variable applications make it the perfect gift for everyone. And the best thing is – the Zippo MPL brings along its own quality gift box.

As always, it's the little details that set Zippo above the rest. The unique two-button ignition of the Zippo MPL ensures a high level of safety and easy operation.

In the tradition of Zippo pocket lighters, the case of the Zippo MPL is brass plated. This makes the Zippo MPL exceptionally durable. The combination of high-quality materials and the ergonomic, yet stylish design makes the Zippo MPL fit comfortably into your hand.

The flame height is adjustable for different applications.

One fill of Zippo Premium Butane Gas is enough for approximately 400 lights. The big fuel level window shows the gas supply at all times.

The retractable hanger keeps the Zippo MPL at hand wherever you use it ... in the kitchen, at the fireplace, or ...

The Zippo Bottom Stamp

## ZIPPO LIGHTER IDENTIFICATION CODES

YEAR LEFT RIGHT

As with most collections, the date of manufacture of a Zippo lighter often affects its value. Though information on the bottom of every Zippo lighter can help you determine its date of manufacture, most lighters introduced between 1941 and 1960 can be identified by style and model and the patent or patent-pending marks.

Starting in the mid-50's date codes were stamped on the bottom. The original purpose was for quality control. The date (and) hour stamp became an invaluable tool for Zippo collectors.

The appearance of the word "Zippo" in the bottom stamp (instead of only the date) there have been three major changes, as shown below.

From 1968 to the mid-80's the word Zippo was stamped in four letters.

### ZIPPO

YEAR	LEFT	RIGHT
1960	Patent Pending	
1961-1962	Patent 2620398	
1962-1966	Black Contour Patent 2706266 (This number was stamped in error, should have been Patent 2620398)	
1967-1969	Patent 2671724	
1969-1980	Patent 2671724 with patent pending	

Zippo records indicate an overlap of 1941-1947. Actual production began in 1942. Most date codes, however, appear to remain correct.

The Zippo serial logo was developed in the late 50's and was phased in on the lighter bottom stamp around 1964.

An error was made in the date code. One of the date marks was removed from the left of the Zippo trademark instead of being removed from the right. Thus the code read 1 1. This date code error was corrected within the same year to read 1 1.

In the late 70's the logo was reintroduced. It was incorporated into the bottom stamp in 1985.

### Solid Titanium

The case of this lighter is made of Grade One commercially pure titanium. Shot blasting the case with a fine aluminium oxide media produces the rugged finish. Natural oils from using and handling the lighter will create color variations in the finish, giving each lighter a distinctive look. An exclusive bottom stamp authenticates this lighter as solid titanium.
