# Zippo Mini MPL

## A LIGHTER STYLE

From candelabras to birthday candles, the Mini MPL is everything consumers love about the original MPL, but just a bit more petite and a lot more colorful.

## EIN FEUERZEUG In handlichem DESIGN

Von Kerzenleuchtern bis zu Geburtstagskerzen zündet der „Mini MPL“ einfach alles und erfüllt somit, was Zippo-Nutzern an dem Original MPL gefällt; dies allerdings ein wenig kompakter und viel farbenfroher.

## UN BRIQUET AU DESIGN PLUS LÉGER

Du chandelier aux bougies d'anniversaire, le "Mini MPL" allume tout et les consommateurs retrouvent en lui tout ce qu'ils aiment chez le MPL original ; toutefois dans un format un peu plus petit et avec beaucoup plus de couleurs.

## EEN AANSTEKER IN EEN LICHTER DESIGN

Van kroonluchters tot en met verjaardagskaarsjes - deze "Mini MPL" ontsteekt alles en heeft dus precies de eigenschappen die de gebruikers zo aan de Original MPL waarderen - zij het dan in miniformaat en aanzienlijk kleurrijker.

Mini MPL available in four colors:

- pearl white #501007 - 19,75 €
- cobalt red #501006 - 19,75 €
- cobalt blue #501005 - 19,75 €

# Zippo MPL

Its multi-purpose applications make the Zippo MPL a necessity. Whether at home, at a barbecue, for candles or the fireplace or on the road camping, the Zippo MPL quickly becomes an indispensable companion.

For this reason, its variable applications make it the perfect gift for everyone. And the best thing is – the Zippo MPL brings along its own quality gift box.

As always, it's the little details that set Zippo above the rest. The unique two-button ignition of the Zippo MPL assures a high level of safety and easy operation.

In the tradition of Zippo pocket lighters, the case of the Zippo MPL is brass plated. This makes the Zippo MPL exceptionally durable. The combination of high-quality materials and the ergonomic, yet stylish design makes the Zippo MPL fit comfortably into your hand.

The flame height is adjustable for different applications.

One fill of Zippo Premium Butane Gas is enough for approximately 400 lights. The big fuel level window shows the gas supply at all times.

The retractable holder keeps the Zippo MPL at hand wherever you use it ... in the kitchen, at the fireplace, or ...

## Frosted Etch

Dieses völlig neue Herstellungsverfahren bei Zippo ermöglicht eine Raufreif-ähnliche Oberfläche im geätzten Design. Der beeindruckende Kontrast zwischen dem geätzten Motiv und der Oberfläche des Feuerzeugs erzeugt eine ungewöhnliche dreidimensionale Tiefe.

La surface de style gravé est née du tout dernier processus de production chez Zippo. Le contraste impressionnant entre l'apparence corrodée et la qualité de surface du briquet génère une profondeur tridimensionnelle inhabituelle.

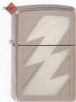

Maaktvendend uit het nieuwste productieproces bij Zippo ontstond een rijp-achtig oppervlak in het geätzte design. Het fiasse contrast tussen de geätzte afbeelding en de oppervlaktewalst van de aansterker geeft ieder motief een uitzonderlijk dimensionaal uiterlijk.

## The Zippo Bottom Stamp

It marks or we fix it just!

## ZIPPO LIGHTER IDENTIFICATION CODES

YEAR LEFT RIGHT

As with most products, the date of manufacture of a Zippo lighter often affects its value. Valuable information on the bottom of every Zippo lighter can help you determine by year of manufacture. Most lighters manufactured between 1960 and 1980 can be identified by year and model and the pattern or pattern-painting marks. Starting in the mid 80's date codes were stamped on the bottom. The original pattern mark for Zippo continues. The appearance of the word "Zippo" in the bottom stamp precedes another date by dating. There have been three major changes, as shown below.

From 1980 to the mid 80's the word Zippo was stamped in block letters.

### ZIPPO

YEAR	LEFT	RIGHT
1920	Pattern/Flamingo	
1927 - 1930	Pattern/20/20/20	
1940 - 1940	Black/Crown, Pattern/20/20/20. This number was stamped in-ink, should have been Pattern/20/20/20	
1960 - 1960	Pattern/21/19	
1960 - 1960	Pattern/21/19	
1960 - 1960	Pattern/21/19	

Zippo records indicate an overlap of business during investigations from 1940-1957. All same lighters produced between 1950-57 were date coded, however, specific pattern unclear. The Zippo spring logo was developed in the late 60's and date placed on the lighter bottom stamp around 1960.

An error was made in the date code. One of the slash marks was removed from the left of the Zippo trademark instead of being removed from the right, thus the code reads 7. It this date code error was corrected within the same year to read 7.

In the late 70's the logo was redesigned. It was incorporated into the bottom stamp in 1986.

Slim lighters were first introduced in 1986, with a full bottom and no date code. The first markings were added in 1987 and overlaid into 1988. From 1987-1989 the date configuration on the slim lighters differed from the regular lighters. From 1990-05, the configuration has been the same.

## **Solid Titanium**

The case of this lighter is made of Grade One commercially pure titanium. Shot blasting the case with a fine aluminum oxide media produces the rugged finish. Natural oils from using and handling the lighter will create color variations in the finish, giving each lighter a distinctive look. An exclusive bottom stamp authenticates this lighter as solid titanium.
