Zippo's classic brushed chrome finish takes on a new look! Directional brushing results in creative design patterns with the enduring appeal of traditional brushed chrome, but with a fresh new perspective. Sides of the directional brushed lighters are tumbled rather than high polish.

Introduced in 1974, the timeless front and reverse floral pattern of the Venetian® continues to be the most globally appealing lighter design Zippo has ever released.

The Zippo pipe lighter is made to the same high quality standards as a Zippo windproof lighter, but designed for the special needs of pipe smokers. The ingenious design encases the flame in metal, allowing it to be drawn directly into the pipe without bending over the side. The result: perfectly lit tobacco, with no damage to the pipe.

The insert of a Zippo pipe lighter is exactly the same size as the standard windproof lighter insert, allowing pipe smokers who have a treasured Zippo windproof lighter the option of replacing the insert to continue carrying the favorite case.
